

# Referee reporting (Full-Time)

After each match for which you have been appointed, you should complete the League match report within 48 hours.

Note: this is in addition to your usual discipline match report that you do via Whole Game System (WGS).

New functionality has been added ahead of the 2021/22 season allowing referees to submit reports into FA Full-Time.

## Access

All referees (see **note** below) can now sign into Full-Time using their FA Account and do not require a FA Full-Time Login invite (sign in using the same details they would use to submit discipline via. Whole Game System). From within FA Full-Time, they will only see fixtures they have been assigned to by the league.

Note: to use this functionality:

- Leagues must have linked the Full-Time record for a referee to their WGS record
- Leagues must have changed their security settings to allow referees access to complete reports
- Referees must be registered with their relevant County FA
- Referees must have a single FAN (duplicates will need to be merged)

# Signing into Full-Time

Sign into Full-Time using the following link:

#### Sign in FA Full-Time

After signing in, the referee will be taken to the "Admin Home" page whereby any fixtures in the last 7 days (or upcoming 7 days) will appear. Please click "Enter Referee Reports" or "My Referee Reports" in order to access all of your reports

Please note: "My Referee Reports" tab will only show fixtures whereby the referee has been assigned to the fixture as a referee. If the referee was expecting to see a fixture which does not appear within the tab then they should contact the relevant league who can assign them to the fixture.

# Editing a report

In order to edit a report, after accessing "my referee report" tab the referee should click "Edit Report"

# Flagging the report (important items)

At the bottom of the form, the referee will also get the option to "Flag the report as important" - this will then display clearly to the league from within their dashboard if any reports have been flagged.

Mark this report as needing attention from your League Administrators. They will see this flag when reviewing the reports.

# Completing Report and Saving

After completing the report, the referee should click "**Update**" in order to save the form and submit it to the League.
